It is with great honor as the President of FAMOHIO, I welcome you all to the 2019 *See Us Soar Hear Us Roar* Program.

I want to begin by taking this opportunity to tell you a little bit about myself and the journey that led me here today. Fifteen years ago, my husband Greg, daughter Ali and I welcomed baby boy Lucas into our family. Not long after he was born, he was diagnosed with Hemophilia B. We had no idea what this meant or how it would affect our lives, but we were scared to death. My sister then also had her boys tested and we found out that my 8-year-old nephew also had Hemophilia B so as a family we began this journey together.

Not long after Lucas was born, I became involved with our local chapter. I volunteered for a fundraiser and met other mothers of boys like ours. We attended many events and eventually made it to our first FAMOHIO. It was amazing to meet all the families from across the state of Ohio who were a lot like us. The educational opportunities were endless and networking with families helped our family form life long friendships with people we most likely would have never met had circumstances been different.

Fast forward a few years to when my good friend and fellow hemo mom Pam talked me into volunteering at FAM and eventually becoming a board member. I participated in many FAMOHIO's until eventually the opportunity for me to become board President presented itself. I am a work in progress. Learning and growing every day with the help and support of an awesome board and community. I am very thankful for all the hard work and dedication the board has put forth in planning this weekend's event.

I encourage each one of you to attend the education sessions, network with one another, build the lifelong friendships that my family and I have, and most of all have fun. I promise you will not be disappointed.

Sincerely,  
Tina Asco'ugh  
President, FAMOHIO

---

The Board of FAMOHIO sends thanks to our generous vendors for their financial and educational support. Please make time to connect with each representative at their displays. FAMOHIO could not exist without financial assistance.

The staff at the Northwest Marriott have continuously provided exceptional service. Please be on your best behavior and take an opportunity to thank the dedicated staff.

The Board of FAMOHIO hopes you will make the most of the program provided. Many hours have been donated in preparation for the event. The board thanks Lisa Raterman and her staff for their expertise in planning and executing this grand event. Remember when we roar we are able to soar!

The six founding fathers of FAMOHIO were active and strong advocates of the bleeding disorder community. These brave men knew firsthand what having a bleeding disorder entailed in a time when treatment was very limited. In addition, they suffered through the tainted blood/factor tragedy. However, rather than wallowing in self pity our founders came together and created an educational forum known then as First Annual Meeting of Hemophiliacs in Ohio and now known as Family Annual Meeting of Hemophiliacs in Ohio or FAMOHIO. These founders realized **EDUCATION is POWER!**

To honor our great founders and current advocates, a series of awards have been created and are awarded annually. On the FAMOHIO website the description of awards are listed. **We wholeheartedly accept nominations and would love to review any nominations we receive. Please consider nominating someone who has helped you on your journey.**

Over the weekend, members of the FAMOHIO board will announce the award recipients for 2019. The FAMOHIO board sends sincere congratulations and appreciation to this years' most worthy winners.

The highest award given by FAMOHIO, Inc. is the IRA GAFFIN MEMORIAL AWARD. This award is presented to an individual who has provided extraordinary voluntary service to the hemophilia community. This merit based award is offered once each year and is open to any individual or couple whose unsung service on behalf of the hemophilia community of Ohio exemplifies the generous spirit of Ira Gaffin. The following names are the awardees who have achieved this great honor.

In 2013, the Les Gutter Memorial Scholarship was created in memory of Les Gutter, who was the dedicated treasurer of FAMOHIO for more than twenty-years. Les's financial expertise, attention to detail, and strong dedication helped ensure the continued success of FAMOHIO, Inc.

The board of FAMOHIO has committed to awarding one \$2,000.00 scholarship yearly, but also has the authorization to increase the number of awards based on the qualifications of the applicants. In 2018, the scholarship committee awarded two \$2,000.00 scholarships:

Steven Miller  
Youngstown State University

Olivia Hoff  
Saint Mary's College

Steven just completed his junior year and is pursuing a major in telecommunications. Steven's overall goal is to become a producer for television shows or movies. Steve aspires to create a documentary to increase awareness of bleeding disorders.

Olivia completed her sophomore year and is pursuing a major in pre-med biology. Olivia is working towards a career as a pediatric hematologist.

All attendees who reside or are treated in Ohio, attend FAMOHIO the same year, have a bleeding disorder, and are seeking post high school education are eligible to apply for a Les Gutter Memorial Scholarship. Forms and instructions are located on our website. <http://famohio.org/scholarship/>

**Remember to purchase 50/50 raffle tickets. The profits are applied to the scholarship account.**

## **SATURDAY, AUGUST 3<sup>rd</sup>**

Morning Session One: Choose one session 9:00am–10:00am

### **Exercise for All**

By Debbie Shijo, MPT

We all know that exercise is good for us, but what if you have a bleeding disorder? During this session, we will discuss the benefits of exercise, address barriers, and perform exercises that are important for all of us to live healthier, active lives. Come and learn how to be a healthier you!

Audience: All

Debbie Shijo, PT, MPT is a born and raised Buckeye. She received her Bachelor of Science in Exercise Science at the University of Toledo and her Master of Physical Therapy from Chatham College. She is a staff physical therapist at Akron Children's Hospital where she has been employed for 18 years. In addition, for the past 16 years she has had the pleasure of working with a wonderfully collaborative team as one of the physical therapists in the Hemostasis and Thrombosis Center at Akron Children's Hospital. During the past 6 summers, Debbie has enjoyed spending time working with the Northern Ohio Hemophilia Foundation's Summer Youth Golf Program where she has the opportunity to interact with kids outside of the clinic setting, providing additional education while helping them learn and adapt a lifelong sport. Debbie was honored to be a speaker at Hemophilia Federation of America's 2018 Symposium.

### **Medicare 101: Learn about your Medicare benefits and options**

By Becky Hayward

This session will focus on who is eligible for Medicare, when someone should apply, how someone enrolls, and what choices someone needs to make. The different parts of Medicare including Part A, B, D, Medicare Advantage and Medicare Supplemental Insurance will be reviewed. We will also discuss different assistance programs and resources available. Come and solve the Medicare mystery!

Audience: Patients/Caregivers

Becky Hayward is the Volunteer Ombudsman for OSHIIP – the Ohio Senior Health Insurance Information Program. Becky joined OSHIIP in 2006. Her responsibilities include overseeing the OSHIIP Volunteer Advisory Board (OVAB), and serving as the primary contact in the home office for over 600 OSHIIP volunteers. Becky also handles the online training for new volunteers, and the monthly webinar refresher trainings for current volunteers.

In addition to her in office duties, Becky is part of the OSHIIP speaker's bureau, which addresses topics pertaining to Medicare including Medicare Parts A, B, D, Medicare Advantage and Medicare Supplemental Insurance.

Becky has a B.A. from Ohio Wesleyan University with a major in Journalism.

She worked in radio and television for 12 years in Tiffin, Toledo and Columbus. She lives in the Columbus area with her husband and son.

### **Choose to take Control**

By Maria Santaella, MSN

Being a good consumer is more than just access to products and care, it is also about knowing the do's and don'ts that impact your daily life with a bleeding disorder. Being a good consumer also includes understanding your disease, choosing a care team, clearly communicating your needs, and accepting responsibility for making the decisions that ensure your safety and wellbeing. During this interactive presentation, we will discuss tips, tricks and tools available to help you become a better self-advocate and an overall good consumer.

Audience: All

Maria Santaella is a board certified hemostasis nurse with a BSN degree in Nursing and a Master degree in Nursing Education. Before accepting the position as the Research Nurse for the National Hemophilia Foundation she was the nurse coordinator for the University of Miami's Hemophilia Treatment Center for 15 years. She is passionate about educating consumers and their families and thoroughly enjoys contributing to research. Maria recognizes both as being essential in improving the lives of those in the bleeding disorders community. She is fluent in both English and Spanish.

### **SATURDAY, AUGUST 3<sup>rd</sup>**

Morning Session Two: Choose one session 9:45am–10:45am

#### **Medical Marijuana**

By Maria Santaella, MSN

Marijuana is increasingly legal and used as a remedy for pain. This workshop will explain what people with bleeding disorders need to know should they be considering medical marijuana as part of a pain treatment plan. This session will help you discern if this treatment is right for you.

Audience: All

#### **New Products and the Future of Hemophilia Treatment**

Dr. Riten Kumar

Hemophilia treatment and care are evolving at a fast pace. Come to this session to explore what is present now and what treatments may be instore in the future. Dr. Kumar will review the methods of action for the newer products and give the audience a look into how treatment may be changed accordingly. This session will provide a look of where we have been and where we are going! Come to keep abreast of the exciting changes!

Audience: All

Riten Kumar, MD, MSc, is the Associate Director for the Pediatric Hemostasis and Thrombosis Fellowship, a physician in the Hematology/Oncology and BMT Clinic at Nationwide Children's Hospital and an Associate Professor of Pediatrics at The Ohio State University College of Medicine.

Colorado-based Mountaineer Chris Bombardier has never let hemophilia stop him from climbing some of the world's tallest mountains. In 2017, Chris partnered with hemophiliac filmmaker Patrick James Lynch and his award-winning production team at Believe Limited to film his journey through Nepal to summit the world's tallest peak, Mount Everest.

In his home state of Colorado, filming captured Chris's training, interviews with Chris, his wife and family, and his hemophilia clinicians. In Nepal, production followed Chris to meetings with Nepalese hemophilia advocates and clinicians as well as to the homes of patients and families affected by the disease, where Chris heard the emotional stories of pain, suffering, and loss related to hemophilia. Production remained with Chris during his two months on Everest, capturing both the physical, psychological, and emotional struggle of acclimating to the mountain and preparing for the greatest challenge of his life, all with the eyes of the global hemophilia community watching.

Leveraging powerful archival footage, the film also chronicles Chris's incredible six-year journey of climbing the Seven Summits, the highest mountain on each continent, during which he receives his "wake-up call" about hemophilia in developing countries and begins his activist mission.

In Nepal, as in nearly all developing nations, there is no routine access to healthcare and lifesaving medicine for people suffering from hemophilia. Bombardier Blood is an inspiring and heart-warming adventure film that cinematically highlights both what is and is not possible when living with this rare disease, depending on a patient's access to medicine and care.
